

WL-ODU300

WL-ODU300 is the outdoor waterproof housing designed for Wlink R100/R200/R210 series 4G LTE router. The IP67 rated Aluminium housing withstands dirt, harmful ingress of water, humidity and extreme temperatures for years of dependable operation. Combining R100/R200/R210 powerful router with the outdoor housing enable the whole unit can extremely sustain in the harshest outdoor environments for heavy industrial scenarios. The whole unit from Wlink give you a choice of external high-gain antenna for better performance and strong signal. It is easy to mount the ODU300 housing on a pole or wall and Deploy in various of outdoor environment.

Wlink has been a leading telecommunication equipment provider, specializing in the design and manufacture of Industrial 5G/4G/3G device to help you optimize industrial network infrastructure and achieve security, reliability, and efficiency for M2M IoT network deployments, expansions, and upgrades to meet various mission-critical applications.

INSTALLATION INSTANCE

SPECIFICATION

Specification	
Interface	2x Cellular Antenna 1x Wi-Fi Antenna 1x Ethernet Port
Connector Type	Cellular, Wi-Fi: N type, M12 RJ45, Power Supply: N type, M16
Protection Rate	IP67
Mechanical	
Dimension	210*130*60mm
Weight	1.55kg
Color	Silvery grey
Installation	Pole Mounting / Wall Mounting
Accessories	
POE Injector	Input: 100~240VAC 0.8A Output: DC 5V-56V 1.0A 1*RJ45 ---POE 1*RJ45 ----LAN
PoE Splitter	Input: 48 ~ 55VDC Output: DC 12V
Cellular Antenna	N type, 5dBi
WiFi Antenna	N type, 5dBi
Ethernet Cable	3 mts (The length can be customized)

◆ Package Kits

- 1x WL-ODU300
- 1x Pole Mounting Kits
- 1x DIN Rail (For mount Wlink router inside the housing)
- 1x PoE Splitter

◆ Optional Accessories

- N-type 4G/3G Antenna
- N-type WiFi Antenna
- N-type GPS Antenna
- Customization Length Ethernet Cable
